## CES & L

The CES&L (Crafting Employability Strategies & Languages) project is a two year Erasmus+ funded collaboration between partners from Austria, Bulgaria, Germany, Ireland, Italy, Poland and the UK. The output, 10 workshops, is a resource for practitioners working with Modern Languages students that aims to enhance their employability by engaging them in work related activities as part of their academic studies. The Project Team has worked with employers across Europe to seek their views on how HEIs can support students to become more employable and recognise the significance of their modern languages degree in the international job market. This has informed the adaptation of the generic AHECS (Association of Higher Education Careers Services in Ireland) Employability module into a resource localised to, and translated for, each of the member countries. Each workshop has comprehensive facilitator notes that include: an introduction, activities and timings, (with information and activity sheets supplied), learning outcomes, assessment strategies and PowerPoint slides.

AHECS are delighted to support and launch this innovative and exciting project in Trinity College Dublin, Ireland on the 7<sup>th</sup> September, 2017. Invited guests will gain an overview of the project process which took place over the last two years, hear feedback from participating European

partners on their experience of engaging in this project and be able to participate in a demonstration of two workshops from this module focusing on best practice approaches to embedding employability within language teaching.

For further information on this project, please visit our website – [www.languages4work.eu](http://www.languages4work.eu).
